March 20/1980

Dear Admiral Turner,

Last night during your excellent lecture on the CIA, you made it a point to identify with ~~Aakerst~~, Vassar and Smith — You left out Oxford —

This is a small token of my personal appreciation and admiration for your work — I am a Theoretical physicist and, on the side, an artist. This book was produced on a commission of Queen Elizabeth —

With best wishes —

Bulent Atalay
Prof. of Physics
Mary Washington College
Fredericksburg, VA. 22401
